

5 METHOD AND SYSTEM FOR DEVICE DRIVER AND OPERATING SYSTEM DEBUGGING OF PORTABLE COMPUTERS

10 Abstract of the Disclosure

A method and system for transmitting and receiving a debugging information word in a computing device is disclosed. The method includes setting a main processor to run in a debugging mode. The method continues with the main processor transmitting the debugging information word to a keyboard controller. The method further includes transmitting, by the keyboard controller, the debugging information word using a secondary bus coupled to the keyboard controller.

the first time in the history of the world, the people of the United States have been compelled to make a choice between two political parties, each of which has a distinct and well-defined platform.
